

Art Club:

We believe that the art department plays an integral role in the development of our student's creativity and artistic understanding. We strive to stretch our student's intellect, imagination and allow them to reflect on their learning. As a department we encourage our students to be creative, solve problems independently, explore visual communication, explore the varied world of Art and experiment with both ideas and materials. We believe that art is more than how to hold a brush or use a pencil; it is an important form of expression and individuality that is showcased and celebrated throughout the school and wider community

[Art club takes place each Tuesday in the Art studio after school](#)

Drama Club every Thursday:

All ages of students welcome to participate in activities and performances that improve their ability to create, perform and respond to drama. They are also encouraged to work together as a team, developing their communication and leadership skills. Students also get to work with scripts and explore infamous plays and musicals such as Hairspray, Romeo & Juliet and Blood Brothers.

Students work towards putting on live productions to be shown both inside and outside of school. Our most recent performance was a fusion of scenes from Matilda, which showcased talent from Y7 - Y10. This was performed live in front of a huge audience and was an integral part of the FMAT performance which takes place at the University of Birmingham

Music:

The Music Department at Erdington Academy is an exciting and vibrant aspect of school life that provides every student with the opportunity to experience music in a way that allows them to flourish in their musical endeavours.

We provide a diverse range of musical activities for all students, catering to all skill levels, musical backgrounds, and interests. There are numerous extra-curricular ensembles, in addition to classroom music, such as: "Rhythm Nation" (Drumming); Guitar Club, Keyboard Club and Composition Club. Our music department provides a variety of instrumental lessons including Guitar, Bass, Drum-kit, Keyboard/Piano and Ukulele. Students have numerous opportunities to perform not only at school but also in the local and wider community throughout the year, with previous trips including performances at The University of Birmingham and The Erdington YMCA Orangery, as well as a wide variety of performances here at the academy

Maths Club:

Maths club takes place every Wednesday after school in rooms 32 & 34 open workshop for all ages and abilities. Get help with homework - Access Mathswatch directly using the computers. solve fun problems & develop your resilience!
