

Home-School Learning Collaboration – D&T (Product Design)

Topics in this cycle: 1. Olympic history. 2. Secondary research – designer Philippe Starck 3. Designing using creative techniques & CAD and make a Paris 2024 Olympic medal 4. Die Casting 5. Product evaluation	Taught: SUMMER 1 10 weeks	Year Group: 9
Key knowledge/concepts to be learnt ('Tell me about...')		Websites/blogs/YouTube links and further reading to deepen and consolidate learning
	www.technologystudent.com www.bitesize.co.uk	
<input checked="" type="checkbox"/> The history about the Olympic Games and different materials used to make the medals, ribbons and packages.		
<input checked="" type="checkbox"/> how to conduct secondary research task analysis		
<input checked="" type="checkbox"/> Philippe Starck a 21st century designer movement (Memphis, Pop art and Surrealism)	How to pewter casting? https://youtu.be/vcxt9PIgMec	
<input checked="" type="checkbox"/> How to conduct a product analysis of existing products using ACCESS FMM		
<input checked="" type="checkbox"/> How to write a detailed design specification for my product	How to use a polisher? https://youtu.be/WrxXBmFY8Bs	
<input checked="" type="checkbox"/> How to draw four (4) design ideas for a creative Olympic medal in 2d and 3d.		
<input checked="" type="checkbox"/> How to use CAD (2d design V3) to develop and create presentational medal drawings - orthographic/engineering drawings	Brazing and Brazing hearth https://youtu.be/Dr7PHyyUQHk	
<input checked="" type="checkbox"/> How to create a mould via laser cutting or /and mould so as to die cast pewter to make a model of medal.		
<input checked="" type="checkbox"/> How to finish a medal and create a package or small-scale storage	Techsoft design V2 (CAD) basics https://youtu.be/LO9CPpsogHQ	
<input checked="" type="checkbox"/> How to carry out an effective product evaluation	How the Bafta Award is made? https://youtu.be/JqJBmq1k_zw	

Home-School Learning Collaboration – D&T (Product Design)

Key vocabulary and definitions to be learnt		What will the assessment look like?
Investigate/research	Carry out research or study into, study of materials and sources in order to establish facts and reach new conclusions.	Project Booklet: Paris 2024 Medal Assessed on investigation, design, make and evaluate. End of Unit test: 35 minutes <ul style="list-style-type: none"> • Multiple choice • Short answer questions • Designing design task
Design	A plan or drawing produced to show the look and function or workings of a building, garment, or other object before it is made.	
Manufacture	To build or make.	
Evaluate	To evaluate is defined as to judge the value or worth of someone or something.	
Reuse	Is the action or practice of using an item, whether for its original purpose (conventional reuse) or to fulfil a different function (creative reuse or repurposing).	
Aesthetics	How well a product appeals to the sense as it relates to (colour, texture & form/geometry)	Family Learning Opportunities Make an Olympic medal model from corrugated card or cereal box. Use play dough to create different shapes your medal could be. Practice drawing/sketching in 2D & 3D (medal ideas or pendants). Research Philippe Starck or Charles Rennie McKintosh Visit these places Paris physically or virtually Design Museum or galleries.
Consumer	Who uses the product.	
Function	The use or purpose of a product.	
Environment	The impact will the product have on the natural environment.	
Design Specification	A list of criteria the product must meet to be successful	
Pewter	Pewter is an attractive metal which has been used for the production of household and other items in Britain since Roman times. It is an alloy consisting mostly of tin which has been mixed with small amounts of other metals such as copper, lead or antimony to harden it and make it more durable.	
Die Casting	Die casting is a metal casting process that involves feeding molten nonferrous alloys into dies under high pressure and at high speed to rapidly create moulded products.	
Thermoplastic	Is a plastic that gets soft when heated and rehardening on cooling without appreciable change of properties.	
Acrylic	Acrylic plastic is a strong, clear polymer used in a host of industries including, but not limited to automobiles, lighting fixtures and optical applications.	
Brazing hearth	Brazing Hearths are usually at bench height and provide a convenient, heat proof and shielded location for Hard Soldering and Annealing. They are used in combination with a Blow Torch fuelled by natural gas, and for which they may have a built-in air compressor, or a Gas Torch fuelled by Liquefied Petroleum Gas (LPG)	
Wasting process	One that produces waste or unusable material either by cutting bits out or cutting bits off. Name the most common wasting processes. - Drilling. - Sawing. - Filing. - Sanding. - Planning. - Chiselling.	
Mould	A hollow container used to give shape to <u>molten</u> or hot liquid material when it <u>cools</u> and <u>hardens</u> "the smith would pour the molten metal into the shaped mould.	

A large empty rectangular box with a black border, intended for student or teacher input.
